

A graduate of the Institut Maritime du Québec (IMQ) in navigation and holder of a Master Mariner's certificate, Captain Baumelle has over 25 years of experience in the maritime field. Throughout his career, he has worked as an officer and captain on various types of merchant ships, as an electronic navigation instructor on ship simulators, and 10 years as a senior marine safety inspector and manager for Transport Canada's Marine Safety Division. Since August 2020, Captain Baumelle has joined the Laurentian Pilotage Authority as an advisory expert in transit efficiency to manage the "Optimized Pilotage Services" initiative and the navigation simulator.
