

Courtney Legault

Courtney joined Fednav in 2013. After an initial posting in Risk Management, in 2015 she transferred to the Arctic operations department. In 2020, she was made Manager of Arctic Operations, Projects and Ice Services and is responsible for the day-to-day commercial activities of Fednav's newest icebreaker, the MV Arvik I. In addition, she manages the bulk carrier export operations for the Baffinland Iron Mines project. Courtney holds an MBA from Concordia University.
