

Louis Maltais

Louis has been with Canadian Hydrographic Service (CHS) since 1999. Over the years he has been involved with many of the activities under CHS mandate from surveys to chart production. Louis moved from the CHS Quebec regional office to accept the position of Director Hydrospatial Services and Support in 2018 with the Ottawa Office. Louis was the Vice-Chair of Tides and Currents Working Group of International Hydrographic Organisation and he is now Canada's representative on the Hydrographic Services and Standards Committee of IHO which overlooks the full suite of present and future standards related to hydrography.
